

Product Attachment

Dss

1. How Does It Work?

1.1 Module configuration:

Navigate to Stores ⇒ Configuration ⇒ DSS ⇒ Product Attachment

1.2 General configuration:

The screenshot shows the Magento 2 configuration interface for the 'Product Attachment' module. The left sidebar contains a navigation menu with icons for Dashboard, Sales, Catalog, DSS, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Product Attachment' and is divided into two sections: 'General Settings' and 'Attachment Settings'. In the 'General Settings' section, there are two dropdown menus: 'Enabled' (set to 'Yes') and 'Debug Mode' (set to 'No'). In the 'Attachment Settings' section, there are three text input fields: 'Product Tab Label' (set to 'Attachment'), 'Default Attachment Label' (set to 'Download'), and 'Allowed File Extensions' (a list box containing .pdf, .doc, .docx, .ppt, .txt, .jpg, .jpeg, .gif, .png, and .zip). A 'Save Config' button is located in the top right corner of the configuration area.

- **General Settings ⇒ Enabled** : Select **Yes** to show the attachment in the frontend.
- **General Settings ⇒ Debug Mode** : Choose **Yes** to enable the debug mode (log file will create in var/log folder).
- **Attachment Settings ⇒ Product Tab Label** : Give a name to the tab.
- **Attachment Settings ⇒ Default Attachment Label** : Give a Default name to the file.
- **Attachment Settings ⇒ Allowed File Extensions** : Select file Extensions (if you want to choose more than 1 file extensions, simple press Ctrl + Click).

Navigate to Catalog ⇒ Products ⇒ Edit (select product you want to attach a file),

Scroll down and you can see Attachments tab.
